LIBERATED AREAS PROMOTE INDUSTRIAL RECOVERY

53 FACTORIES RESUME OPERATION -- Tung-pei Jih-pao, 26 Jul 49

By May 1949, some 52 factories including both heavy and light industries resumed operations in T'ai-yuan. The number of employees in the factories increased from 14,700 in April to 21,000 in May. The T'ai-yuan power plant increased its output of electricity from 7,000 to 13,000 kilowatts. The majority of the factories have completed or surpassed their production goals for the month of June. Many of the factories which produced war material urder KMT rule are now converted to the production of consumer goods.

Most of the 3,100 private factories and 14 of the 16 public industries in the Wu-ch'ang-Han-k'er area have resumed operations. Four of the largest private textile mills are now operating 11,000 spindles and producing about 120 piculs of yarn per day. Twenty of the 33 private cigarette factories in the Wu-ch'ang-Han-k'ou area have already resumed operations and are now manufacturing about 5,000 packages of cigarettes per month. Instrumental in the rapid recovery of these industries was the People's Bank, which extended loans, amounting to more than 834,640,000 yuan, to help them resume of stations.

The T'ien-ching Enterprises Corporation recently purchased 51,000 rounds of Australian wool and is preparing to begin the manufacture of woolen yarn. The Jen-11 (Veda: 170 8354) Enterprises Corporation recently purchased jennies abroad to be installed in its Mill No 2. The T'ien-ching Chung-t'ien (51, 1947) Machinery Plant, which is the largest telepione and switchboard manufacturing plant in North China, has already surpassed its preliberation production record sin is now raking plans to increase its output by six times. The Chen-hua Cardboard Factory is now producing about 15 tons of cardboard per month. However, all paper manufacturing plants in T'ien-ching are facing critical pulp shortages.

By June, the 18 private flour mills in Pei-p'ing increased their output of flour to about 198,200 sacks. When all of the 86 machines are put into operations, these mills will have a monthly production capacity of about 400,000 sacks of flour.

The 49 edible oil processing plants in Chi-an are now producing about 505,330 pounds of edible oil per month. The June production of these plants totalled approximately 200,000 pounds.

REGULATIONS UNITY RECEDITMENT OF WORKERS -- Tung-per Jin-pao, 26 Jul 49

The following regulations governing recruitment of workers by the factories and mines of state enterprises were promulgated on 15 July 1949 by the Northeast Executive Committee. These regulations were drafted for the purpose of correcting existing malpractices, such as employing workers without regard to production plans and requirements, employing workers without regard to production plans and requirements, employing workers without proper processing procedures, etc., which have resulted not only in great losses and expenditures to the government but unnecessary administrative complications.

- 1. The workers' recruitment plans of the various factories and mines of state exterprises must be based on the number of workers required for the implementation of the established production goal and plan. The plans must first be reviewed and approved by the agencies which control them directly, and then be submitted to the Northesst Executive Committee for approval.
- 2. All workers' recruitment plans which have been improved must show the exact number of local workers to be hired by the respective factories and mines. Recruitment of additional employees from other areas shall be the responsibility of the personnel office of the various agencies and the Labor Bureau of the Northeast General Labor Union. Most of this task shall be handled by the Labor Bureau. In recruiting workers, priority of employment must be given to the skilled unemployed of the various cities. Agents already sent out by various factories and mines of state enterprises to recruit workers must be recalled immediately.
- 3. From August, all factories and mines of state enterprises will be required to submit a morthly employment report to the various ministries and the Northeast Executive Committee. The report must be submitted by the 10th of the following month. For the month of July, the report must be submitted by 15 August.
- 4. Recruitment of workers for the enterprises under the control of the provincial governments must be conducted by the offices of the provincial labor bureaus and labor unions.
- 5. These regulations will become effective on 1 August 1949 and violators will be punished in accordance with the law.

On the same day, the Northeast Bureau of the CCP Central Committee issued a memorandum sanctioning the regulations end ordering all party members to cooperate in the enforcement of the regulations.
